About Factory

Homesbathroom established in 2004. With standardized workshop more than 60000 square meters and in 2019 Homes bought a tap factory that established in 2002

Homes is a professional OEM & ODM manufacturer in kitchen and bathroom products and one-stop sourcing service provider. Research and development is the inexhaustible driving force for continuous progress of HOMES.

Now there are 20 professional engineers, and has been granted a number of patents.

Every key component has been approved by PPAP process, to avoid congenital defects involved in the products

Every link from raw material to surface quality control is in line with the ISO9001 quality system and is equipped with corresponding testing positions.

Specialization and internationalization of product quality standards is one of the goals of HOMES

HOMES pays attention to handling customer complaints in a timely manner, and implement corrective&preventive measures by formulating an 8D report to avoid the recurrence of similar problems

Homes has set up complete supporting production workshops in house from casting to finishing and achieved 60% of workload by automation, which will be expected to reach 85% by 2024

The electric towel rack produced by HOMES can save 50-55% energy compared with similar products

In 2022,HOMES builded Anti-Fingerprint PVD procedure, which greatly improved the metal texture, corrosion resistance and easy cleaning of the product surface. At the same time, it can quickly meet the customer customized colours.

All production processes are controlled by ERP system

In 2021, HOMES builded 800KW photovoltaic power station, what shipping in time rate improve lots

From design to after-sales service and energy independence, we have formed a complete team. Therefore, HOMES has a high advantage in new product promotion, quality management, and timely shipment rate.

We are looking forward to cooperating with you!

关于公司

家家卫浴成立于2004，标准化厂房60000多平方米，并于2019年收购一家成立于2002年的古典水龙头工厂。

家家卫浴是一家专注于厨房和卫浴产品研发制造商和一站式采购服务商。

研发是HOMES不断进步的不竭动力。

现已有专业工程师20名,并拥有多项专利，每一个关键配件都经过PPAP，避免产品涉及先天性或安全、卫生缺陷。

从原材料到表面质量控制的一个环节都符合ISO9001质量管理体系和配备了相应的检测岗位。

产品质量标准专业化，国际化是HOMES的工作目标之一。

家家卫浴非常重視及时处理客诉，通过制定8D报告落实纠正&预防措施，避免类似的问题重复发生。

从毛胚到表面处理，家家卫浴已建成完整配置生产产线并已经实现自动化率60%。

预计到2024年自动化率可以达到85%。

家家卫浴生产的电热毛巾架，与同类产品相比能节能50-60%。

2022年家家卫浴引进了防指纹的PVD生产方案，产品表面的金属质感、防腐蚀能力和表面清洁功能得到了大幅提升,同时，

可以快速满足客人对产品表面颜色的定制需求，从PO到发货全程由ERP系统完成，

2021年家家卫浴自建800KW光伏电站，它为按时交货提供了“绿色能源”保障，

从设计到售后服务以及能源独立，家家卫浴已经组建了完整团队。因此，家家卫浴在新品推广、质量管理、出货及时率都具有较高的优势。

我们期待与您合作！

UL approved AIR SWITCH FOR DISPOSAL
UL认证空气开关

#15 Air Button

Garbage Disposel

The HOMES Air Switch is an easily installed, air actuated On/Off control for any electrical device up to 1HP, 120V. Simply plug the Air Switch into any standard electrical outlet and plug the appliance into the receptacle provided in the Air Switch. The appliance can be activated and deactivated by depressing an air button mounted up to 15 feet away.

Eliminates need for an electrical wall switch
Simplifies first time garbage disposal installations
Operates on 120V household wall receptacle

INSTRUCTIONS

1. A pressure wire connector is provided on metallic enclosures to permit connections of a minimum No. 8 AWG solid copper bonding conductor between any metal equipment, metal enclosures of electrical equipment, metal water pipe, or conduit within 5 feet (1.5m) of the unit as needed to comply with local requirements. Polymeric enclosures are supplied with an internal equipment ground bar.

2. NOTE: THIS CONTROL MUST BE FACTORY INSTALLED OR INSTALLED BY A LICENSED ELECTRICIAN ACCORDING TO STATE, NATIONAL AND LOCAL ELECTRICAL CODE AND THE INSTRUCTIONS.

3. Use copper conductors only.

4. DANGER: To reduce the risk of injury, do not permit children to use this product unless they are closely supervised at all times.

5. Install to provide drainage of compartment for electrical components.

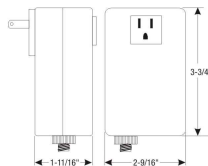

6. A ground-fault circuit interrupter (GFCI) designated line is to be installed in accordance with the National Electrical Code, the Canadian Electrical Code and all local codes in effect at the time of installation. When unit is provided with a GFCI, the GFCI must be tested monthly. To conduct the test the unit must be operating. Push the test button. The unit should stop operating and the reset button should appear. Push the reset button. The unit should now operate normally. If the interrupter fails to operate in this manner, there is a ground current flowing, indicating the possibility of electric shock. Disconnect the power until the fault has been corrected.

7. The electrical supply for this product must include a suitably rated switch or circuit breaker to open all ungrounded supply conductors to comply with Section 422-20 of the National Electrical Code, ANSI/NFPA70-1987. The disconnect must be readily accessible to the tub occupant but installed at least 5 feet (1.5m) from tub water.

8. No electrical appliance may be placed within a 5 foot reach path from the water's edge.

9. Use only non-conductive tubing to connect any air actuator.
